Annexure 'B' to Independent Auditors' Report

Referred to in clause (f) of paragraph 2 under the heading "Report on other Legal & Regulatory Requirements" of the Independent Auditors' Report of even date to the members of Camac Commercial Company Limited on the standalone financial statements for the year ended March 31, 2016

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Camac Commercial Company Limited ("the Company") as of March, 31, 2016 in Conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

- 3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls, and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Process of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March, 31, 2016, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

The Accounting Policies have been consistently applied by the Company and are consistent with those used in the previous year.

1.2 Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities, at the end of the reporting period. All other liabilities are classified as non-current.

An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

1.4. Revenue Recognition

1.10 Employee Benefits

Employee benefits have been recognized in the following ways:

Short term Employee Benefits

Employee benefits payable within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus, short term compensated absences, etc. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

Post-Employment benefits

Defined contribution Plan

Employees of the Company are entitled to receive benefits under the Provident Fund, which is a defined contribution plan. Both employees and employer make monthly contributions to the plan at a pre determined rate of employee's basic salary. These contributions to Provident Fund are administered and managed by a recognized Provident Fund Trust under Multi Employer Plans. Contributions by the Company to the Provident Fund are expensed in the Statement of Profit and Loss, when the contributions are due.

Defined benefit Plan

The Company's gratuity benefit scheme is defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine it's present value. Any unrecognised past service costs are deducted. The calculation of the Company's obligation is performed annually by a qualified actuary using the projected unit credit method.

The Company recognises all actuarial gains and losses arising from defined benefit plans immediately in the Statement of Profit and Loss. All expenses related to defined benefit plans are recognised in employee benefits expense in the Statement of Profit and Loss.

Other Long term Employee benefits

Leave Encashment

The employees can carry-forward a portion of the unutilised accrued leaves and utilise it in future service periods or receive cash compensation on termination of employment. Since the leaves do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilised wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit except for the current obligations as per the Actuarial valuation. The Company records an obligation for such leaves in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Actuarial gains/losses, if any, are immediately recognized in the Statement of Profit and Loss.

Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. An impairment loss, if any, is charged to Statement of Profit and Loss in the year in which the assets is identified as impaired.

1.14 Provisions & Contingencies

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence, or non-occurrence, of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. TO THE MEMBERS OF CAMAC COMMERCIAL COMPANY LIMITED

Annexure 'A' Referred to in clause (f) of paragraph 1 under the heading "Report on other Legal & Regulatory Requirements" of the Independent Auditors' Report of even date on the consolidated financial statements for the year ended March 31, 2016

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2016, We have audited the internal financial controls over financial reporting of Camac Commercial Company Limited (hereinafter referred to as "the Parent Company") and its one associate namely Vasuki Properties Limited, and two associates namely Combine Holdings Limited and Radio Network Limited have been audited by other auditors, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the of the Parent company and its associate companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports as referred to under Para (iii) of Auditor's Responsibility of our Independent Auditor's Report read with para 1 above, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Parent Company and its associate companies audited by us and other auditors, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

We are unable to comment on the adequacy of internal financial controls over financial reporting systems and operating effectiveness of such controls in respect of other four unaudited associates which are companies incorporated in India as stated in Para B of table under auditor's responsibility of our Independent Auditors Report.

In a case where the associate also holds more than 20% of equity of the reporting Company (i.e. Reciprocal interests or cross-holdings), the consolidated accounts of the associate exclude the holding of the Company in which it is getting consolidated.
- ii) The Company accounts for its share in net assets of the associates, post-acquisition, after eliminating unrealized profits and losses resulting from transactions between the Company and its associates to the extent of its share, through its statement Profit and Loss to the extent such change is attributable to the associates profit or loss through its reserves for the balance, based on available information.
- iii) The difference between the cost of investment in the associates and the share of net assets at the time of acquisition of shares in the associates is identified and disclosed in the consolidated financial statements as Goodwill or Capital Reserve as the case may be.
- iv) The financial statements of the Company and its associates used in the consolidation are drawn up to the same reporting date as that of the Company i.e. 31st March, 2016.
- v) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are prepared in the same manner as the Company's separate financial statements.

D. Other Significant Accounting Policies

i. Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities, at the end of the reporting period. Although, these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring material adjustment to the carrying amounts of assets or liabilities in future periods.

ii. Current and Non -current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be realized in, or is intended for sale or consumption in, the company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is expected to be realized within twelve months after the reporting date; or
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be settled in the company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within twelve months after the reporting date; or
- (d) the company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

iii. Revenue Recognition

Revenue is recognized on accrual basis, to the extent that it is probable that the economic benefits will flow to the company and can be reliably measured and wherever there are uncertainties in the ascertainment/ realization of income the same is not accounted for.

Interest income is recognized on a time proportionate basis taking into account the amount outstanding and the applicable interest rate. Interest on tax refund is accounted for on receipt basis.

All other expenses on an existing fixed assets including day to day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the assets and are recognized in the statement of profit and loss when the asset is derecognized.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2016

v. Depreciation

vi. Investments

Investments held by the Company with an intention to hold the same on long term basis have been classified as long term investments. The long-term investments are valued at their cost of acquisition. Provision for diminution in the value of long-term investments is made only if such a decline is other than temporary.

Current investments, which are intended to be held for not more than one year, are carried at cost or market/ quoted value whichever is less. The current maturities portion of long term investments is shown as Current Investments. The comparison of cost and fair value is done separately in respect of each category of investment.

On disposal of investments, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

When disposing of a part of the holding of an individual investment, carrying amount to be allocated to that part is determined on the basis of the average carrying amount of the total holding of the investment.

Short term Employee Benefits

Employee benefits payable within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus, short term compensated absences, etc. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

Post-Employment benefits

Defined contribution Plan

Employees of the Company are entitled to receive benefits under the Provident Fund, which is a defined contribution plan. Both employees and employer make monthly contributions to the plan at a pre determined rate of employee's basic salary. These contributions to Provident Fund are administered and managed by a recognized Provident Fund Trust under Multi Employer Plans. Contributions by the Company to the Provident Fund are expensed in the Statement of Profit and Loss, when the contributions are due.

Defined benefit Plan

The Company's gratuity benefit scheme is defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine it's present value. Any unrecognised past service costs are deducted. The calculation of the Company's obligation is performed annually by a qualified actuary using the projected unit credit method.

The Company recognises all actuarial gains and losses arising from defined benefit plans immediately in the Statement of Profit and Loss. All expenses related to defined benefit plans are recognised in employee benefits expense in the Statement of Profit and Loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2016 Other Long term Employee benefits

Leave Encashment

The employees can carry-forward a portion of the unutilised accrued leaves and utilise it in future service periods or receive cash compensation on termination of employment. Since the leaves do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilised wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit except for the current obligation as per the Actuarial valuation. The Company records an obligation for such leaves in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Actuarial gains/losses, if any, are immediately recognized in the Statement of Profit and Loss.

Taxes on Income for the current year (Current Tax) are determined on the basis of taxable income after considering applicable tax allowances and exemptions in accordance with the provisions of Income Tax Act, 1961, as amended from time to time.

Minimum Alternative Tax (MAT) paid in accordance with the tax laws which give rise to future economic benefits in the form of adjustments of future income tax liability is considered as an asset if there is convincing evidence that the Company will pay normal tax in future.

Deferred Tax is recognized, subject to considerations of prudence, on timing difference, being the difference between taxable income and accounting income that originates in one period and is capable of reversal in one or more subsequent years.

xii. Impairment of Assets

All assets are reviewed for impairment; wherever events or changes in circumstances indicate that the carrying amount may not be recoverable. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. An impairment loss, if any, is charged to Statement of Profit and Loss in the year in which the assets is identified as impaired.

xiii. Provisions & Contingencies

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence, or non-occurrence, of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation.
